NewsNet is the Copyright Office's free electronic mailing list. *NewsNet* issues periodic email messages that alert subscribers to hearings, deadlines for comments, new and proposed regulations, new publications, and other copyright-related subjects of interest. A complete archive of *NewsNet* messages is available at www.copyright.gov/newsnet.

Subscribers may sign up for four topics of information. They are:

- ▶ *What's New at the Copyright Office*, which alerts subscribers to general copyright-related news and changes to the Office website
- ▶ *Licensing*, which provides updates on regulations and procedures for compulsory and statutory licenses
- ▶ *Legislative Developments*, which informs readers about copyright-related bills introduced in Congress or enacted into law
- ▶ *Copyright eService Updates*, which gives readers the latest information regarding the Office's online registration system

Subscribers may indicate preferences regarding delivery of their messages, including frequency of delivery. They may also suspend delivery until a set date and receive messages through a personalized RSS feed.

NewsNet is not an interactive discussion group.
