I am an online graphics designer and while I make my designs, I use the work of artists with their permission. Its hard to find these artists sometimes. Most do exist but sometimes it is like they are vanished from the earth. Like Sara Moon for instance (www.sara-moon.com) Nobody knows where she/he is. People are really looking for her all over the world and her work is just too gorgeous to put away. This new law would make it so much easier for me. Her work is very popular and there are lots more examples to think of.

Hopefully this new law is gonna come through.
